

Mutation status

Number at risk

WT	126	86	56	33	0
Mut	73	59	37	26	0

Time (months)

Detailed description: This table shows the number of subjects at risk for each group (WT and Mut) at 0, 10, 20, 30, and 40 months. The WT group starts with 126 subjects at risk, while the Mut group starts with 73. Both groups show a decrease in the number of subjects at risk over time, with the WT group having a higher number of subjects at risk at each time point compared to the Mut group.
